Case for Endorsement

BSB Business Services Training Package (Version 7)

Technical Skills

Business Enterprise Skills

August 2020

Executive summary

Introduction

This Case for Endorsement outlines the rationale, evidence and industry support for modifications to training products relating to the BSB Business Services Training Package (Version 7) projects:

- 2A Technical Skills
- 3A Business Enterprise Skills

It builds on the consultations undertaken by PwC's Skills for Australia in the Cases for Change for these projects, which were approved by the Australian Industry and Skills Committee (AISC) in June 2018 (Technical Skills Project) and August 2018 (Business Enterprise Skills Project).

This Case for Endorsement demonstrates how the proposed training products align with the Council of Australian Governments (COAG) Industry and Skills Council reforms to Training Packages, and other principles for quality that inform our training product development work.

The work that the Business Services Industry Reference Committee (Business Services IRC) has undertaken has been underpinned by the desire to:

- strengthen training in strategically identified technical areas;
- better target transferable skill development; and
- identify opportunities to streamline training products in the BSB Business Services Training Package (Version 7).

The BSB Business Services Training Package (Version 7) addresses identified future skills and knowledge needs in the Business Services workforce. The identified needs have been translated into learning requirements set out in training products.

The Business Services IRC has recognised the changing nature of job roles and addressed the increasing importance of transferable skills to learners (Business Enterprise Skills Project). The Business Services IRC has also recognised the importance of training products that are aligned to established professions and has reviewed these training products in parallel - each in the context of emergent skills and knowledge requirements of their respective professions (Technical Skills Project).

The Business Services IRC is satisfied that the level and scope of stakeholder consultation were commensurate with the changes to training product and the size and profile of the industry in order to ensure that the needs of learners, industry and workers in the sector are met. It is also satisfied that there is strong industry support for these changes and that the proposed modifications will ensure that the BSB Business Services Training Package (Version 7) continues to meet the needs of learners and workers within the Business Services industry.

Structure of the report

This report has been developed as part of our training product development work on behalf of, and with direction from, the Business Services IRC.

We have structured this report around the required elements of the Case for Endorsement template. These key elements are:

- A Administrative details of the Case for Endorsement
- B Description of the work and request for approval
- C Evidence of industry support
- D Industry expectations about training delivery
- E Implementation of the new Training Package
- F Quality assurance reports
- G Implementation of the COAG Industry and Skills Council reforms to Training Packages
- H A copy of the full content of the proposed training products

| Key | Key to Table 1 | | | | | | |
|-----|-------------------|--|--|--|--|--|--|
| E | Equivalent | Where the workplace outcomes of the superseded and superseding training package components are equivalent. | | | | | |
| NE | Not equivalent | Where a training package component is superseded, and the workplace outcome of the component has changed. | | | | | |
| NC | Newly created | Where the training package component has been created to address an emerging skill or task required by industry. | | | | | |
| D | Deleted | Where a training package component is deleted as the skill or task is no longer required by industry. | | | | | |

Please note: Units of competency have been newly created to address skill requirements identified through industry consultation. In some instances, a newly created unit of competency has been mapped as superseding one or more existing units. This has occurred where the vocational outcomes of the superseded unit(s) are addressed by current industry requirements described in the newly created unit. Specific examples are discussed in section B of this document.

The above training products are listed in the BSB Business Services Training Package (Version 7) Modification History tables and are being submitted as an Australian Industry and Skills Committee (AISC) endorsement. A substantiation of the determination of equivalence or non-equivalence of training package products can be found in that Modification History tables in the Companion Volume Implementation Guide (CVIG) and in Appendix 8 of this Case for Endorsement. The training products have been independently verified as meeting the requirements of the Standards for Training Packages and reviewed and approved by the Business Services IRC.

Table 1 Total number of changes

| Proposed changes to training products | Number of training products |
|--|-----------------------------|
| Updated units | 283 |
| Newly created units | 20 |
| Total number of units submitted for endorsement | 303 |
| Updated qualifications | 33 |
| Newly created qualifications | 0 |
| Total number of qualifications submitted for endorsement | 33 |
| Units deleted | 0 |
| Qualifications deleted | 7 |

Note: The Business Services IRC also approved a number of non-endorsable updates which will be implemented when (Version 7) of the BSB Business Services Training Package is added to the National Register. Further details are provided in **Appendix 2**.

Case for Change details

The Case for Change for the 2A Technical Skills Project was developed and submitted as an independent Case for Change, endorsed in June 2018. The Case for Change for the 3A Business Enterprise Skills Project was outlined in the 2018 Business Services Industry Skills Forecast and Proposed Schedule of Work.

The Cases for Change were prepared by PwC's Skills for Australia on behalf of the Business Services IRC and endorsed by the Australian Industry and Skills Committee (AISC).

There are were no requirements set by the AISC in relation to this training package development work.

Table 2 Activity order details

| Activity Order | Project | Date executed | Scope of activity order (# of units) |
|---------------------|-------------------------------|---------------|--------------------------------------|
| PwC/TPD/2017-18 001 | 2A Technical Skills | June 2018 | 215 |
| PwC/TPD/2018-19 002 | 3A Business Enterprise Skills | August 2018 | 312 |

B Description of work and request for approval

B1 Description of work being undertaken and why

The key drivers for change for the Technical Skills and Business Enterprise Skills Projects are outlined below.

Technical Skills

The Technical Skills Project considered sectors of the BSB Business Services Training Package that are aligned to established professions. Many of these professions have recognised representative bodies that supported targeted engagement with employers and practitioners in the field. Consideration was given to sector-specific trends and their impact on job roles in each profession.

The project examined each sector and addressed the evolving skills and knowledge that are required to competently perform these specialised job functions (*cf.* the Business Enterprise Skills Project, which examined transferable skills present across Business Services job functions). The separation of Technical Skills project work from the Business Enterprise Skills review ensured that consultation was targeted within professions and recognised that qualifications may be required in specialist areas despite low enrolments.

Audit and Compliance

This workstream addressed:

- Insufficient rigour in the Packaging Rules of BSB51615 Diploma of Quality Auditing. The packaging of this
 qualification allowed a learner to attain the qualification despite having only completed one 'BSBAUD' ('Quality
 Auditing') coded unit. This qualification has no core units. The draft qualification BSB50920 Diploma of Quality
 Auditing has a core of four industry-recognised quality auditing units, as well as two elective groups, one
 specifically focussed on audit and compliance skills.
- The opportunity to reflect existing industry practice by developing a lead auditor Skill Set in the nationally recognised training system. There is low industry recognition of BSB51615 Diploma of Quality Auditing, with many current and prospective practitioners electing to undertake nonaccredited 'Lead Auditor' training courses. Updates to the qualification and the creation of a Lead Auditor Skill Set should increase industry recognition and engagement in nationally recognised training.

Conveyancing

This workstream addressed:

- The trend among state and territory regulatory bodies towards requiring completion of the Advanced Diploma of Conveyancing as a condition of licensing (as opposed to the Diploma qualification). Independent state and territory licensing requirements have historically made the development of suitable national training package qualifications challenging. Updates in this workstream have resulted in a single qualification that enables a learner to satisfy existing licensing requirements around the country. Western Australia is the only state that currently requires completion of BSB52015 Diploma of Conveyancing as a condition of licensing.
- The adoption of e-conveyancing (electronic conveyancing) and the emerging skill and knowledge requirements that come with this new technology.
- The increasingly complex role of licensed conveyancers. The role that conveyancers are required to fulfil in relation
 to a transaction is broadening. Conveyancers are required to recognise the tax implications of transactions and are
 now often required to collect and remit tax accordingly. A new core unit of competency (BSBCNV616 Comply with

В

tax obligations in a conveyancing transaction) has been developed that will equip learners with the skills to fulfil this increasingly complex role.

Human Resources

This workstream addressed:

- Misalignment of units of competency within qualification levels. Consultation undertaken in this workstream
 supported the development of an industry-validated mapping of Human Resources (HR) job roles to AQF levels.
 This enabled the creation of streams of units across nominal AQF levels. These streams address key HR functions
 (e.g. learning and development, workforce planning) and better represent the level associated with each job role.
 This approach has been reflected in the three draft qualifications at Certificate IV, Diploma and Advanced Diploma.
- The need for learners to obtain foundational HR skills before being trained in specialist skills. Industry consultees expressed the importance of learners progressing through the competency levels to develop entry-level skills before completing higher qualifications. Entry Requirements have been added to the Diploma and Advanced Diploma qualifications to support scaffolded skill development. Close engagement was carried out with the Australian HR Institute and its member network to ensure that relevant qualifications continue to meet the needs of the Human Resources profession.
- Human Resources' increasing involvement in the strategic management of organisations. At all levels (especially
 at higher AQF levels) practitioners require a strong understanding of business operations, as well as critical
 thinking and leadership skills. The Packaging Rules for the Advanced Diploma qualification have been updated to
 include units of competency in both critical thinking and leadership. At all levels the broadening Human Resources
 function was addressed by updating existing HR units of competency, as well as packaging more transferable
 business skill units into the qualifications.

Information Services

This workstream addressed:

- The opportunity to increase engagement with vocational training in 'Information Services' disciplines (libraries, archives, records management). Records management skills have been packaged as specialisations in the draft qualifications of Certificate III, Certificate IV and Diploma of Business to increase visibility of the training, as well as to recognise the increasing importance of records management in organisations. Close engagement was carried out with the Australian Library and Information Association and its member network to ensure that relevant qualifications continue to meet the needs of the library profession.
- The change in industry terminology over the past decade caused by the shift to a digital environment. Terms such as 'recordkeeping' and 'online' have become outdated in Information Services industries. The assumption is now that activity must be able to be carried out in a digital environment. Units of competency and qualifications have been updated to ensure they remain relevant and utilise current industry terminology. Three new units of competency (BSBINS502, BSBINS515, BSBINS516) have also been created to strengthen these changes in the draft qualifications.

Legal Services

This workstream addressed:

The need to better align training products to existing job roles. Legal Services qualifications were primarily targeted at paralegal staff working in corporate / private law firms. Industry consultation indicated that these job roles are mostly occupied by learners completing a Bachelor's degree. The BSB Training Package qualifications are commonly used by the community legal sector. As such, the training products have been aligned to legal practice areas that are more applicable in these environments. Three new units of competency (BSBLEG531, BSBLEG534) address this changed context.

- В
- The pathway opportunity presented by the emergence of legal project management. The routine and administrative tasks that are performed by many Legal Services workers are increasingly becoming automated and digitised. This presents an opportunity for Legal Administrative Assistants, Legal Secretaries and Paralegals to support the management of legal projects and develop required skills for Legal Practice Management. A new unit of competency (BSBLEG425) has been developed that will enable learners to develop the skills required for this emerging discipline.
- The increasing adoption of digital ways of working in the legal profession. Legal Services job roles are increasingly
 requiring the competent use of digital technologies. Court documents are often required to be filed electronically
 and communication is largely online. Units of competency have been updated to reflect the electronic nature of
 Legal Services work tasks.

Marketing

This workstream addressed:

- The opportunity to ensure that qualifications equip workers with the skills and knowledge required for entry-level marketing roles. Current practice in the marketing profession is to hire people with a Bachelor's degree for full-time entry-level job roles. Industry consultation suggested that this was due to: (a) key skills that learners were failing to develop in the current qualifications, and (b) an unfavourable perception of the role of vocational education pathways. The qualifications have been updated to include units of competency that will equip workers with skills for entry-level roles and act as an alternative pathway into the profession.
- The increasing importance of effective Public Relations brought about by social media and the rise of the 24-hour news cycle. The Public Relations sector was identified as an integral part of the marketing stream. The qualification Packaging Rules have been updated to ensure that Public Relations skills are developed by learners throughout the marketing qualifications. A new unit of competency (BSBMKG628) was developed to address the skills and knowledge required for leading organisational public relations.
- The need for learners to obtain foundational marketing and communications skills before being trained in specialist skills. Industry consultees expressed the importance of learners progressing through the competency levels to develop entry-level skills before completing higher qualifications. The already-existing Entry Requirements have been updated in BSB50620 Diploma of Marketing and Communication and BSB60520 Advanced Diploma of Marketing and Communication to support scaffolded skill development.

Business Enterprise Skills

The Business Services Training Package required substantial update to address obsolete and superfluous training products that have built up over successive reviews. The practice of reviewing small pockets of training products in isolation has resulted in a high volume of 'generalist' units of competency with very low enrolment. Of the 312 units of competency in scope of this review, greater than 50% receive less than 1,500 enrolments per year (compared with 100,000+ for the most heavily used). The current version of the Business Services Training Package has no cohesive structure and is considered inaccessible to users (ref. Figure 1 below).

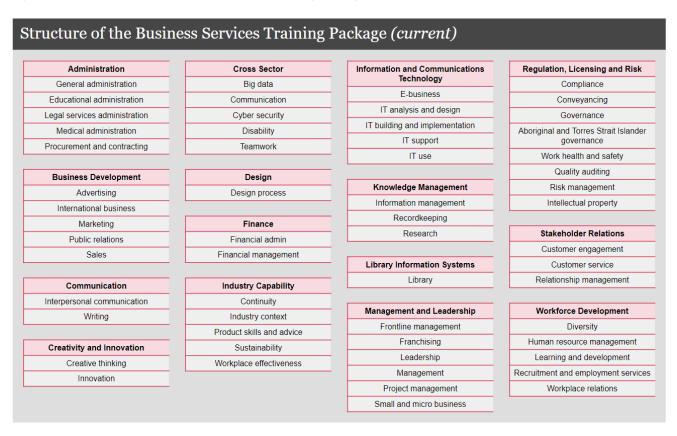

In addition, 15 units of competency coded BSBDES, have been transferred to the CUA Creative Arts and Culture Training Package. The units relate to design skills, which is not a subsector of the Business Services industry and do not appear in any qualifications in the BSB Training Package Version 6.

The restructure of the Training Package and reduction in total number of training products strongly aligns with Council of Australian Governments (COAG) Industry and Skills Council reforms to Training Packages. In addition to considering enrolment data, units of competency were individually examined to identify those that are obsolete or duplicative. These findings were validated through consultation with industry and training sector stakeholders.

The Business Services IRC is acutely aware of the burden that may be borne by users where units of competency are deleted from the national register. For that reason, units have been superseded (and mapped as 'Not Equivalent') rather than 'Deleted'. The impact of this approach is that the units will continue to exist on the national register. Training package qualifications that import these units will avoid disruption, allowing other IRCs to consider the suitability of the updated units when the qualification is next reviewed.

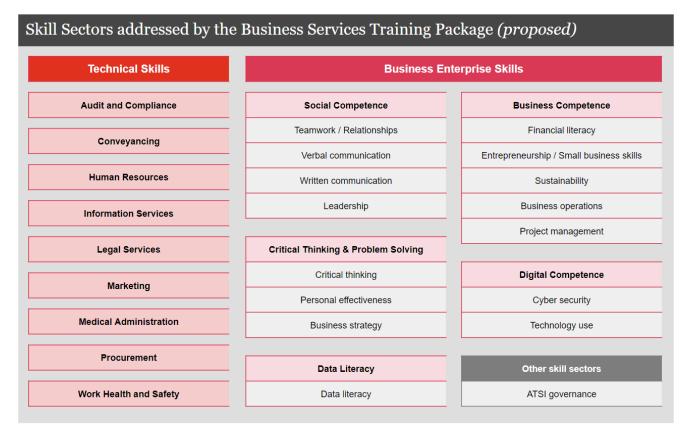

As part of work undertaken in the Business Enterprise Skills project, 173 units of competency were identified as obsolete. These units are mapped as superseded in Table 1.

Figure 1 Structure of the BSB Business Services Training Package (current)

Whilst also representing an opportunity to streamline the Training Package, the primary focus of the Business Enterprise Skills project was to develop training products that better equip learners with essential transferable skills (or business enterprise skills). These business enterprise skills underpin all roles in the Business Services sector, as well as roles across other industries. This holistic review created an opportunity to restructure and simplify the Training Package (ref. Figure 2 below).

Figure 2 Updated structure of the BSB Business Services Training Package (Version 7)

The revised structure was informed by extensive research and consultation with industry, training providers and other key stakeholders. The 'Business Enterprise Skills' streams are a taxonomy of transferable skills that are becoming increasingly demanded by employers and are therefore essential for meaningful participation in the workforce. The 'Technical Skills' in Figure 2 allow for specialisation as a pathway in a career journey. The simplified structure of the Training Package will be accessible for learners and employers, as well as VET sector stakeholders.

The Business Enterprise Skills can be thought of as 'buckets' of units of competency for learners to access throughout their career journey to increase necessary skills in specified areas. They were developed at the level of workplace competence and informed by thought leadership and stakeholder consultation. The units of competency have been developed in line with this framework.

Qualifications in the Business Enterprise Skills Project have been developed to align with evolving Business Services job roles. The qualifications have been reviewed in streams (ref. Figure 3 below), which has allowed the development of meaningful qualifications that incorporate a variety of transferable business enterprise skills. Seven qualifications have been deleted due to low enrolment and completion rates, and lack of connection to job outcomes.

Figure 3 Business Enterprise Skills project - qualification streams

Business

Training products have been streamlined from 27 qualifications addressing a range of focus areas (e.g. business administration and customer engagement) into six qualifications that address common skills and to better support learner pathways between qualifications and levels. There is one updated qualification at each AQF level from 1 to 6 (Certificate I to Advanced Diploma). Specialisation streams have been included where applicable to ensure that previous qualification focus areas are not lost, as well as to recognise emerging areas of priority.

Two skill sets have been newly created to better address the requirements of learners that are not yet equipped to undertake a Certificate II qualification and for whom the Certificate I may not be appropriate - BSBSS00124 Workplace IT Foundations Skill Set, BSBSS00125 Workplace Foundations Skill Set.

The Certificate III, Certificate IV and Diploma include specialisation streams ranging from Customer Engagement to Sustainability and Cyber Security. The impact of having fewer, better targeted qualifications should be increased employer and learner awareness of qualification outcomes. Increased simplicity of the suite of qualifications (as well as a specialisation recognised on a testamur) will foster an increased understanding of the skills acquired by a learner. This should also concentrate enrolments and support state and territory funding arrangements. This will also allow learners to better understand the skill development pathways.

New units of competency have been developed and packaged in the qualifications to address emerging skill requirements. For example, two new sustainability units of competency (BSBSUS412, BSBSUS413) have been created to address demand for learners to have the skills to develop, implement and evaluate workplace sustainability plans.

Industry consultees suggested that the level of training and assessment required for BSB60120 Advanced Diploma of Business was not appropriate for a learner who does not yet have competence to initiate, plan, execute and evaluate their own work and/or the work of others. Consultees suggested that the required competence could be achieved through completing a Diploma or Advanced Diploma from the BSB Training Package or by having two years equivalent full-time relevant workplace experience in an operational or leadership role in an enterprise. These Entry Requirements have been added to the qualification.

Leadership and Management

The Leadership and Management qualifications have been updated to mirror industry-articulated skill requirements. The Packaging Rules of the qualifications have been updated to ensure that critical thinking and effective communication are core in the learner's development.

Due care has been taken to ensure that the Leadership and Management qualifications are sufficiently differentiated from the stream of Business qualifications. The Leadership and Management qualifications provide learners with a range of skills required to lead and manage teams and organisations. In comparison, the Business qualifications offer skills across a broad range of business-specific competencies with the opportunity to develop leadership skills in a business context.

Industry consultees suggested that the level of training and assessment required for BSB60420 Advanced Diploma of Leadership and Management was not appropriate for a learner who does not yet have competence to initiate, plan, execute and evaluate their own work and/or the work of others. Consultees suggested that the required competence could be achieved through completing a Diploma or Advanced Diploma from the BSB Training Package or by have two years

equivalent full-time relevant workplace experience in an operational or leadership role in an enterprise. These Entry Requirements have been added to the qualification.

Project Management

The Project Management qualifications were well regarded by industry consultees. Enrolment numbers in the qualifications are strong. For these reasons, the qualifications (Certificate IV – Graduate Diploma) underwent only minor change, largely through updates to the underlying units of competency.

A new unit of competency (BSBPMG541) was developed to address competency requirements for the management of complex projects. This new elective unit (nominal level 5) will ensure that learners are equipped with the skills and knowledge required to manage large scale projects.

Small Business

In an increasingly competitive and globalised business environment, 'intrapreneurship' is increasing in prevalence. This term describes individuals who may be launching new business ventures as part of an existing organisation (*cf.* 'entrepreneurship').

The Small Business qualifications have been updated to apply to intrapreneurs as well as those launching or operating microbusinesses creating self-employment (i.e. more traditional entrepreneurs). The qualifications have been retitled 'Entrepreneurship and New Business' to reflect this.

These qualifications are used as part of the New Enterprise Incentive Scheme (NEIS). During the review of these qualifications, close engagement was carried out with the National NEIS Association – the representative body for organisations providing New Business Assistance through the NEIS program.

Other Qualifications

The Certificate IV and Diploma of Business (Governance) have been updated and retitled to the 'Aboriginal and Torres Strait Islander Governance' to better reflect the existing content and usage of those qualifications. The minor updates that have been made to elective banks more accurately reflect the purpose of the qualifications.

The Graduate certificate in Management (Learning) and the Graduate Diploma of Management (Learning) have been amalgamated into the Graduate Diploma of Management (Learning). The duplicative nature of these qualifications presented a compelling opportunity for amalgamation.

Skill Sets

Skill sets have been updated in response to industry needs to ensure that there are clear pathways into qualifications and job roles. New skill sets have been created to meet industry's desire for targeted microcredentials that align to emerging skills needs. Advice on the implementation of these skill sets is included in the Companion Volume Implementation Guide.

Table 4 Summary of qualification changes for the Technical Skills Project

B2 Request for approval

This submission puts forward the Case for Endorsement for the proposed components of the Business Services Training Package (Version 7).

The draft components submitted to the AISC for endorsement are detailed in Error! Reference source not found. and s ummarised in **Table 1** in Section 1 of this Case for Endorsement.

All components submitted for endorsement have been developed and reviewed in accordance with the *Standards for Training Packages 2012*, the *Training Package Products Policy 2019* and the *Training Package Development and Endorsement Process Policy 2019*.

Evidence of consultation with states and territories, and evidence that the views of key stakeholders have been considered, is provided in Section 3 of this Case for Endorsement.

The training product changes outlined in this Case for Endorsement are based on PwC's Skills for Australia's analysis of the feedback received through consultation with industry.

C Evidence of industry support

The Business Services IRC supports the submission of the training products detailed in this Case for Endorsement.

Name of Chair:

Signature of Chair:

Date:

Yvonne Webb, Business Services IRC Chair

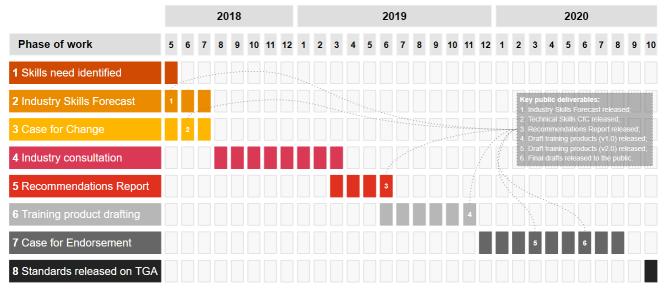

2 July 2020

C1 Conduct of enquiry and evidence of consultation

Our consultation approach has been guided by the following principles for training product development, which requires that our work should:

- 1 Be industry led
- 2 Encourage broad and transparent stakeholder consultation
- 3 Respond quickly to industry skills needs and priorities
- 4 Be efficient and cost effective
- 5 Produce high quality and independently validated training products

Figure 4 Project timeline - BSB Business Enterprise Skills and Technical Skills projects

We have consulted extensively with Business Services IRC members, industry and other relevant stakeholders through the methods outlined below. A list of stakeholders consulted over the course of project work is found in **Appendix 1**. The consultation methodology ensured that all stakeholders had an opportunity to provide feedback on the training products, irrespective of geography or stakeholder type. Stakeholders in regional and remote areas were proactively engaged throughout the projects using consultation mechanisms such as surveys and videoconferences.

IRC meetings

The Business Services IRC has been engaged throughout all phases of project work, including initial consultation, review of consultation insights and training product recommendations, and review of draft and final training products. Business Services IRC members have been engaged through formal IRC meetings, individual and focus group consultation, project

Evidence of industry support

С

working group (PWG) meetings (where applicable) and invitations to submit feedback for draft training products published on the PwC's Skills for Australia website. The approach of the IRC has been, at all times, forward-looking and innovative.

The table below provides a list of the IRC meetings where Projects 2A or 3A were discussed.

Table 6 List of Business Services IRC meetings

| Thursday Zhu Sury, 2020 | 3A Business Enterprise Skills |

Project working groups (PWGs)

Following approval of the Case for Change PWGs were established to provide subject matter expertise for training product development work, and to guide stakeholder engagement. PWG members for each project are listed in **Appendix 1** of this Case for Endorsement.

PWG membership and composition were directed by the Business Services IRC and reflected the representation of geographies and industry sectors appropriate for the project. PWGs for Projects 2A and 3A met three times over the period from August 2018 to December 2019. The purpose of these meetings was for members to offer specialised input, to discuss key consultation feedback and to consider recommendations in response to that feedback. In addition to scheduled meetings, PWG members were consulted on an ongoing basis to validate key issues and review key documents.

Surveys

In order to collect feedback from a broader range of participants, surveys were published on the PwC's Skills for Australia website. Two surveys were published. The surveys were open to the public for a total of 26 weeks. The first survey was open from October 2018 to February 2019, and served to increase stakeholder consultation and awareness of the projects and gain insights on skills and knowledge requirements prior to development of the Recommendations Report. The second survey was open from November 2019 to February 2020 to allow stakeholders to provide feedback during the draft version public review period.

Targeted industry consultations

Targeted consultations were conducted with groups and individuals identified as relevant stakeholders by the Business Services IRC, PWGs and industry contacts within the PwC's Skills for Australia network.

As the Business Services Training Package is part of a national training system, PwC's Skills for Australia sought consultation with, and invited feedback from, stakeholders in all states and territories, including industry employers and

organisations, peak bodies, government and registered training organisations (RTOs). Targeted consultations were generally conducted via one to one interview over the phone or in person, focus groups and email correspondence.

In general, targeted consultation concentrated on geographies in which economic activity and employer demand are most concentrated for the relevant job roles addressed by the project. Furthermore, to capture feedback from stakeholders that were not able to be engaged via one to one interview or focus groups, PwC's Skills for Australia published draft training products on its website and social media channels for public review and encouraged IRC and PWG members to share published materials with their networks.

Targeted training sector consultation period

During the draft version public review period (11 November 2019 to 31 January 2020) PwC's Skills for Australia actively engaged with training sector stakeholders, holding open forum consultation sessions in Adelaide, Brisbane, Canberra, Darwin, Hobart, Melbourne, Perth and Sydney. PwC's Skills for Australia also hosted video conferences for regional stakeholders (centred on engagement in Wollongong and Bendigo). The consultation sessions involved an overview of the training product development process, an update on the current state of the draft training products, discussion of implementation considerations and an interactive feedback session. More than 100 stakeholders participated in these consultation sessions and provided targeted feedback.

All RTOs with BSB Training Products on scope were notified of review progress and outcomes on several occasions, inviting feedback on both projects.

The table below summarises stakeholder involvement in consultation for these projects, including IRC and PWG members who also participated in one-on-one consultations or focus group discussions.

Table 7 Consultation by project and stakeholder type

| Project | Industry | RTO | Government/Peak body/Union/Other | TOTAL |
|-------------------------------|----------|-----|-------------------------------------|-------|
| 2A Technical Skills | 261 | 230 | 65 | 556 |
| 3A Business Enterprise Skills | 106 | 291 | 50 | 447 |

Table 8 Consultation by project and state or territory

| Project | ACT | NSW | NT | QLD | SA | TAS | VIC | WA | National | TOTAL |
|----------------------------------|-----|-----|----|-----|----|-----|-----|----|----------|-------|
| 2A Technical Skills | 9 | 144 | 13 | 50 | 47 | 12 | 80 | 97 | 104 | 556 |
| 3A Business Enterprise Skills | 8 | 96 | 39 | 38 | 31 | 19 | 60 | 66 | 90 | 447 |

Engagement with State and Territory Training Authorities

State and Territory Training Authorities (STAs) have been engaged throughout the review process and provided feedback at scheduled periods and on an ongoing basis. All STAs were engaged to provide feedback on draft training products released during the following periods:

• Draft version public review period: 11 November 2019 – 31 January 2020

Public validation period: 24 February – 6 March 2020

• Dedicated STA review period: 25 May - 23 June 2020

Draft training product review

Draft training products were published on PwC's Skills for Australia's website for public review and feedback on two occasions:

Draft version public review period:

- 2A Technical Skills, 11 November 2019 31 January 2020
- 3A Business Enterprise Skills, 11 November 2019 31 January 2020

Public validation period:

- 2A Technical Skills, 24 February 2020 6 March 2020
- 3A Business Enterprise Skills, 24 February 2020 6 March 2020

Email alerts were also sent to all BSB subscribers of PwC's Skills for Australia's website (including STA networks), IRC members, PWG members, and all RTOs that have BSB units on scope. The email alerts advised that the draft training products were available for review on the project webpage.

Based on the download data available through PwC's Skills for Australia's website, there was a minimum of:

- 230 unique draft training product downloads for the draft version public review period;
- 247 unique draft training product downloads for the public validation period.

D Industry expectations about training delivery

D1 Industry advice on training delivery

Industry members advised that training delivery and assessments should be permitted to be performed in a simulated environment to ensure learner accessibility. This is provided that the simulated environment is realistic and sufficiently rigorous to cover all aspects of this sector's workplace performance. As a result, this has been reflected in the Assessment Conditions of each reviewed unit.

In addition, within the Assessment Requirements of each unit, to be consistent with Training Package Products Policy and to improve clarity of instructions to assessors, the Performance Evidence states the number of times a task is required to be performed in order to demonstrate competence. Industry stakeholders advised that, in most cases, tasks should all be performed more than once in order for a learner to be deemed competent.

Additional advice is included in the BSB Companion Volume Implementation Guide about industry's expectations of training delivery, delivery modes and pathways, work-based learning strategies and learner characteristics, and assessments.

D2 Industry advice on traineeships and apprenticeships

The supersession of BSB10115 Certificate I in Business and BSB20115 Certificate II in Business may have an impact on traineeships and apprenticeships. The updated BSB10120 Certificate I in Workplace Skills and BSB20120 Certificate II in Workplace Skills better reflect the skills required by a learner entering the business services workforce for the first time. Refer to section B for further details.

Industry consultation has indicated that all other amendments to training products presented in this Case for Endorsement are not expected to have an impact on the use of traineeships and apprenticeships.

E Implementation of the new Training Package

E1 Implementation management strategy

This review of the BSB Business Services Training Package encompasses a substantial number of training products (ref. Table 1). The Business Services IRC understands the burden borne by the training sector (e.g. RTOs, regulators, training materials developers) through the implementation of a Training Package release of this scale, and the risk of learners being impacted under default transition arrangements set out in the *Standards for RTOs 2015*.

Given the non-equivalence of many updated qualifications, as well as the timing of submission (i.e. August AISC meeting), an extended transition period would benefit existing and future learners by allowing RTOs more time to meet their obligations. This should also allow sufficient time for processing the higher-than-normal volume of applications to change RTO scope of registration.

As a result, to ease in transition between versions of the BSB Business Services Training Package, the Business Services IRC has formally requested that PwC's Skills for Australia apply for an extension of default transition periods to 18-months.

Communication of changes to the BSB Business Services Training Package will require RTOs to make changes to their qualifications on scope. To address this, the following communications strategy has been developed to notify stakeholders, including RTOs, of changes to the BSB Business Services Training Package:

- Update the PwC's Skills for Australia website, including publishing a news post on the BSB webpage
- · Email all subscribers to the BSB industry on PwC's Skills for Australia's website
- Email all RTOs with BSB Training Products on scope at the point of submission to the AISC (i.e. several months prior to release on the national register)
- Email organisations and individuals previously engaged throughout the training product development process, including STAs, employers, RTOs and peak bodies
- Develop a summary document outlining the changes, and include it with the abovementioned communications
- Verbally communicate the changes at relevant meetings, conferences and events attended by PwC's Skills for Australia team members
- Share the changes with the broader stakeholders via social media, including the PwC's Skills for Australia LinkedIn page

In addition, an automated email will be sent from training.gov.au notifying all RTOs on scope of changes to the BSB Business Services Training Package.

E2 Licensing requirements

Updates to the Conveyancing qualifications will have a minor impact on licensing in that profession. The states and territories that mandate completion of these qualifications as a condition of licensing will need to review the adequacy of the updated Advanced Diploma qualification to assess its viability as an ongoing licensing requirement.

As discussed in **Section B1** of this Case for Endorsement, updates to the Advanced Diploma of Conveyancing do not impact existing licensing arrangements – i.e. the qualification is packaged in such a way that a learner can satisfy existing licensing requirements in all states and territories that currently mandate completion of the Advanced Diploma, including those that mandate completion of specific units of competency.

Western Australia is currently the only state that requires completion of BSB52015 Diploma of Conveyancing as a condition of licensing (and does not also recognise completion of the Advanced Diploma qualification). The Department of Mines,

E Implementation of the new Training Package

Industry Regulation and Safety WA (the relevant regulatory body) has been consulted and made aware of the qualification changes.

Industry consultation indicated that all other changes made in relation to the training products will not affect any licensing requirements across Australia. Licensing requirements that affect BSB Business Services Training Package are listed in the BSB Implementation Guide in the 'Implementation information' section.

F Quality assurance reports

F1 Independent Quality Reports

Independent Quality Reports, including an Editorial Report, an Equity Report, and a Quality Report have been included as part of this Case for Endorsement.

The reports attest to there being a quality assured Companion Volume Implementation Guide prepared. PwC's Skills for Australia confirms that this guide will be available on VETNET following publication of Version 7 of the BSB Business Services Training Package on the National Register.

Equity Report

The equity report was completed on 17 April 2020.

Editorial Report

The equity report was completed on 17 April 2020.

Quality Report

The quality report was completed on 24 May 2020.

F2 Declaration of alignment with standards

Throughout the training product development process, we have ensured that developed qualifications, skill sets and units of competency meet industry needs and the requirements of:

- The Standards for Training Packages 2012
- Training Package Products Policy 2019
- Training Package Development and Endorsement Process Policy 2019.

F3 Declaration of having met the Training Package Quality Principles

The table below provides statements that support that the training products being submitted to the AISC for approval meet the Training Package Quality Principles.

Table 9 Declaration of having met the Training Package Quality Principles

| Principle | Evidence |
|---------------------------------------|--|
| Reflect identified workforce outcomes | The conduct of our enquiry, as outlined in Section C1 of this Case for Endorsement, has ensured that industry needs have formed the basis of training product development. |
| | Existing training products have been amended to ensure alignment with current industry processes, procedures and technology. |
| | New training products have been created to meet the needs of current job roles across the Business Services industry. |
| | Training products have been developed to respond to the key trends identified in the Business Services Industry Skills Forecasts and Proposed Schedules of |

F

| Principle | Evidence | | | | |
|--|---|--|--|--|--|
| | Work and key themes emerging from industry consultation. | | | | |
| Support portability of skills and competencies including reflecting licensing and regulatory requirements | We have closely involved relevant regulatory and licensing bodies in our training product development work, including consultations with the Business Services IRC and PWG members, focus groups and targeted consultations with stakeholders listed in Appendix 1. Refer to Section E2 for further discussion of licensing requirements. Industry indicates no other licensing or regulatory | | | | |
| | requirements have been impacted by the proposed modifications to training products listed in this Case for Endorsement. | | | | |
| | Skill sets have been updated to support the transferability and portability of skills. For example, BSBSS00109 Introduction to Team Management Skill Set, is applicable to individuals in a variety of organisations in a team management position. | | | | |
| 3. Reflect national agreement about the core transferable skills and core job-specific skills required for job roles as identified by industry | Our consultations have included stakeholders from national and multinational employers, peak bodies, RTOs and other subject matter experts, as outlined in Appendix 1. | | | | |
| Be flexible to meet the diversity of individual and employer needs, including the capacity to adapt to changing job roles and workplaces | Units of competency have been updated to ensure alignment with industry needs and workforce skill requirements. Furthermore, terminology used in Performance Criteria, Performance Evidence and Knowledge Evidence has been updated, where appropriate, to ensure it is sufficiently flexible to adapt to evolving industry processes, procedures and technologies. | | | | |
| | Qualifications have been updated to ensure appropriate and varied listed elective units of competency are available for learners. Moreover, Packaging Rules have been updated, where appropriate, to increase the number of units of competency that may be selected from elsewhere within the BSB Business Services Training Package (Version 7), other endorsed training packages or accredited courses to maximise each qualification's flexibility. | | | | |
| 5. Facilitate recognition of an individual's skills and knowledge and support movement between the school, vocational education and higher education sectors | Skill sets and qualifications have been updated to provide learners with pathways from school into VET, between VET qualifications, into higher education, and into job roles in Business Services, with 'exit points' into jobs existing for each qualification. | | | | |
| 6. Support interpretation by training providers and others through the use of simple, concise language and clear articulation of assessment requirements | The content of units of competency has been developed in consultation with industry and trainers and assessors, ensuring language used is relevant to workplaces and is easily understood in a training context. | | | | |
| | A Companion Volume Implementation Guide will accompany Version 7 of the BSB Business Services | | | | |

Quality assurance reports

| Principle | Evidence |
|-----------|--|
| | Training Package to support implementation of training across a range of settings. |
| | Assessment Requirements in units of competency have been standardised where appropriate to ensure consistency. Where industry requires assessment to occur in a particular way for a given unit of competency, it has been clearly articulated in the Assessment Conditions. |

G Implementation of COAG Industry and Skills Council reforms to Training Packages

G1 Alignment with the COAG ISC reforms to Training Packages

The table below demonstrates the alignment of the draft training products with the Council of Australian Governments (COAG) Industry and Skills Council reforms to Training Packages.

Table 10 Alignment with the COAG ISC reforms to Training Packages

| Principle | Evidence |
|--|---|
| Ensure obsolete and superfluous qualifications are removed from the system | Qualification enrolment and completion data, as well as feedback from industry and training sector stakeholders were used to inform determinations as to whether qualifications were obsolete and/or superfluous. Refer to Appendix 7. |
| Ensure that more information about industry's expectations of training delivery is available to training providers to improve their delivery and to consumers to enable more informed course choices | Training products have been clearly titled, with titles linked to job roles and/or to specific skills, enabling users without an in depth understanding of the VET system to make more informed course choices. The inclusion of specialisation streams in key qualifications will also support user engagement. A Companion Volume Implementation Guide will accompany Version 7 of the BSB Business Services Training Package to support implementation of training across a range of settings. Assessment Requirements in units of competency have been written to ensure consistency. Where industry requires assessment to occur in a particular way for a given unit of competency, it has been clearly |
| | articulated in the Assessment Conditions. |
| Ensure that the training system better supports individuals to move easily from one related occupation to another | Entry Requirements have only been applied to qualifications where a strong rationale has been articulated by industry stakeholders. No prerequisite units of competency have been added. Skill sets have been updated in response to industry |
| | needs to ensure that clear pathways into qualifications and job roles exist. |
| 4. Improve the efficiency of the training system by creating units that can be owned and used by multiple industry sectors | The Business Services Training Package contains units of competency and qualifications that support the development of transferable skills. These business enterprise skills underpin all roles in the Business Services sector, as well as roles across other industries. The updated structure of the Training Package supports greater use by SSOs and IRCs. |
| 5. Foster greater recognition of skill sets | Skill sets have been updated in response to industry needs. New skill sets have been created to meet |

| Principle | Evidence |
|-----------|--|
| | industry's desire for targeted microcredentials that align to emerging skills needs. |
| | Advice on the implementation of these skill sets is included in the Companion Volume Implementation Guide. |

G2 Alignment of development work with AISC Cases for Change

The Activity Orders for the Cases for Change for Projects 2A and 3A were for a review of 527 units of competency, as outlined in **Table 3** in Section A of this Case for Endorsement.

The final result of the training product development work was a review of 545 units of competency - including 283 updated units of competency submitted for endorsement and 20 units of competency newly created, as outlined in **Table 11 and 2** in Section 1 of this Case for Endorsement.

Our work also included non-endorsable changes to the Training Package. A list of these changes is available in **Appendix 2**.

G3 Evidence that training products are publication ready

All draft training products are included in this Case for Endorsement. Subject to the AISC's endorsement of the training products, they are ready for publication on the National Register.

We expect Version 7 of the BSB Business Services Training Package to be published on the National Register in October 2020.

Appendices

| Appendix 1 | Consultation | 39 |
|------------|--|-----|
| Appendix 2 | Non-endorsable components | 94 |
| Appendix 3 | Equity Report | 96 |
| Appendix 4 | Editorial Report | 99 |
| Appendix 5 | Quality Assurance Report | 102 |
| Appendix 6 | Qualification supporting information | 111 |
| Appendix 7 | Training products proposed for deletion | 128 |
| Appendix 8 | Substantiation of determination of equivalence or non- equivalence of training products | 129 |

The tables below list the stakeholders who provided feedback throughout PwC's Skills for Australia training product development work in their capacity as IRC members, or through their participation in PWGs, targeted consultations, surveys and feedback on draft training products published on PwC's Skills for Australia's website.

Industry Reference Committee members

For a complete list of current Business Services IRC members, please refer to the relevant AISC website page below:

Business Services IRC

Please note that former IRC members have been included in the PWG and targeted consultation tables as appropriate.

Appendix 2 Non-endorsable components

This section outlines additional updates that will be implemented when BSB Business Services Training Package (Version 7) is Versioned on the National Register.

Non-endorsable changes

The IRC approved non-endorsable updates which will be implemented when the BSB Business Services Training Package (Version 7) is added to the National Register.

Non-endorsable training products submitted

Appendix 3 Equity Report

Equity Report

The following Equity Report was produced by Bernadette Delaney as part of the quality assurance process.

| Information required | Detail |
|---|---|
| Training Package title and code | BSB Business Services Training Package (Version 7) |
| Number of new qualifications and their titles ¹ | nil |
| Number of revised qualifications and their titles | 33 Attachment A |
| Number of new units of competency and their titles | 20 Attachment A |
| Number of revised units of competency and their titles | 283 Attachment A |
| Confirmation that the draft training package components are publication-ready | The draft training package components meet the requirements in Section 2 Equity checklist of draft training package components. |
| Is the Editorial Report prepared by a member of the Quality | Yes |
| Assurance Panel? If 'yes' please provide a name. | Bernadette Delaney |
| Date of completion of the report | 30 th June, 2020 |

Section 2 - Equity checklist of draft training package components

Equity requirements

The training package component(s) comply with Standard 2 of the *Standards for Training Packages 2012*. The standard requires compliance with the *Training Package Products Policy*, specifically with the access and equity requirements:

- Training Package developers must meet their obligations under Commonwealth antidiscrimination legislation and associated standards and regulations.
- Training Package developers must ensure that Training Packages are flexible and that they provide guidance and recommendations to enable reasonable adjustments in implementation.

Equity reviewer comments

Yes, there is compliance with Standard 2 of the *Standards for Training Packages* 2012 and *Training Package Products Policy* 2019 (the Policy).

Access and Equity Requirements

The draft BSB Business Services Training Package Companion Volume Implementation Guide (Version 7)(CVIG,v7) has a section on Access and Equity Considerations. This section identifies learner categories that may require individual support as well as particular legislative responsibilities with learners with a disability.

Reasonable Adjustment

The draft *CVIG v7.0* advises Registered Training Organisations (RTOs) about implementing reasonable adjustments to respond to different needs of learners and ensure equitable access to training products. This section also provides links to additional resources such as the Australian Disability Clearing House on Education and Training. This information follows the Policy requirements (1.5.2).

Foundation Skills

There is a section in the draft *CVIG v7.0* explaining the approach to Foundation Skills in the units of competency. These Foundation Skills are described in detail on the units but clearly relate to the skills essential to achieving the performance criteria. As per the Policy guidance, these Foundation Skills reflect and do not exceed the skills required in the workplace (1.3.2).

Units of Competency

¹ When the number of training products is high the titles can be presented as an attachment.

The draft units presented have the required code and titles. Unit codes follow the prescribed conventions and the titles have been reviewed to ensure they concisely describe the unit outcomes. A mapping table was provided which incorporated the newly required components of the equivalence table (2.4.5). This table registered non-equivalent units and explained the consultation and development approach to these units in the *Case for Endorsement* (2.5.4). Imported units were checked for currency (2.3.3).

Entry requirements

The CVIG v7.0 has a section that provides a rationale for entry requirements to qualifications and skill sets.

Section 3 - Training Package Quality Principles

Quality Principle 4

Be flexible to meet the diversity of individual and employer needs, including the capacity to adapt to changing job roles and workplaces.

| Equity requirements | Equity reviewer comments |
|--|--|
| What evidence demonstrates that the draft components provide flexible qualifications/units of competency that enable application in different contexts?' | There were 20 draft qualifications and only those at Diploma or Advanced Diploma level had mandatory entry requirements. These entry requirements were flexible and consisted of other BSB units or a relevant prescribed period of work experience. The CVIG 7.0 provides a detailed and clear rationale for each of these entry requirements. |
| | None of the qualifications from Certificate 1 to Certificate IV had entry requirements. |
| | Packaging rules were flexible with a wide range of electives offered. These rules allow for importing of units of competency from other training packages or units of competency from other qualifications within the BSB Training Package, as well as specifically nominated core units. |
| | One of the main objectives of this BSB project was to ensure units of competency are generic so as to allow flexibility for contextualisation in the application to the multitude of business environments. |
| Is there evidence of multiple entry and exit points? | The qualifications offer a range of entry and exit points for different educational and occupational levels. |
| | Skills Sets also enhance accessibility to the qualifications with all presented having credit pathways to qualifications. |
| Have prerequisite units of competency been minimised where possible? | There were no prerequisites in the BSB or imported units presented in this review. |
| Are there other examples of evidence that demonstrate how the key features of the flexibility principle are being achieved? | The BSB Training Package components have been developed so they are applicable across job roles in different contexts, wherever possible. The draft units of competency developed will apply to a number of different work contexts in the business services sector. The more specific technical qualifications and units in areas such as compliance, conveyancing, information services, human resources and marketing have carefully used a design approach that ensures their relevance in a range of different contexts across Australian industries. |

Quality Principle 5

Facilitate recognition of an individual's skills and knowledge and support movement between the school, vocational education and higher education sectors.

| Equity requirements | Equity reviewer comments |
|--|---|
| What evidence demonstrates pathways from entry and preparatory level as appropriate to facilitate movement between schools and VET, from entry level into work, and between VET and higher education qualifications? | The Case for Endorsement states that Skill Sets and qualifications have been revised to provide learners with pathways from school into VET, between VET qualifications, into higher education, and into job roles in Business Services or Technical roles. Relationships between skill sets and qualifications are noted in the draft CVIG,v7. |
| | The draft CVIG,v7 provides details on qualifications available for pathways in relation to VET, higher education, apprenticeships and VET in schools. |
| | Pathways to occupational outcomes are also listed by qualification. No national credit arrangements exist at this time with higher education. |

Quality Principle 6

Support interpretation by training providers and others through the use of simple, concise language and clear articulation of assessment requirements.

| Equity requirements | Equity reviewer comments |
|---|--|
| Does the Companion Volume Implementation Guide include advice about: Pathways Access and equity Foundation skills? (see Training Package Standard 11) | The draft <i>CVIG v7.0</i> has advice on pathways, access and equity and foundation skills. Skill Set pathways to qualifications are described (p120). |
| Are the foundation skills explicit and recognisable within the training package and do they reflect and not exceed the foundation skills required in the workplace? | The foundation skills are clearly documented for each unit if they are not explicit in the performance criteria. These additional foundation skills, essential to performance are stated on each unit and provide sufficient guidance to training product users. |
| | All foundation skills prescribed clearly the requirements needed to complete the tasks outlined in the units. The foundation skills are also relevant to the assessment requirements and would be covered in the application of these requirements. |

Appendix 4 Editorial Report

Editorial Report

The following Editorial Report was produced by Bernadette Delaney as part of the quality assurance process.

1. Cover page

| Information required | Detail |
|---|---|
| Training Package title and code | BSB Business Services Training Package (Version 7) |
| Number of new qualifications and their titles | nil |
| Number of revised qualifications and their titles | 33 Attachment A |
| Number of new units of competency and their titles | 20 Attachment A |
| Number of revised units of competency and their titles | 283 Attachment A |
| Confirmation that the draft training package components are publication-ready | The draft training package components were publication-ready. |
| Is the Editorial Report prepared by a member of the Quality | Yes |
| Assurance Panel? If 'yes' please provide a name. | Bernadette Delaney |
| Date of completion of the report | 30 th June, 2020 |

2. Content and structure

Units of Competency

| Editorial requirements | Comments |
|---|--|
| Standard 5: • The structure of units of competency complies with the unit of competency template. | Yes, the structure of the units of competency is compliant. Each unit of competency followed the template requirements covering code, title, application, unit sector, elements, performance criteria foundation skills and unit mapping information. All components follow the required descriptors outlined in the template. Additional information was supplied in the unit mapping section of the unit with all the superseded units listed for advice to Registered Training Organisations (RTOs). |
| Standard 7: • The structure of assessment requirements complies with the assessment requirements template. | Yes, the structure of the Assessment Requirements is compliant, covering performance and knowledge evidence, assessment conditions and a link to the BSB Business Services Training Package Companion Volume Implementation Guide (Version 7) CVIGv7.0. Each section of the Assessment Requirements presented follows the required template and provides volume or frequency for the performance evidence. There was close engagement with industry to determine this volume or frequency. For conveyancing, the industry body, the Australian Institute of Conveyancers, suggested changes to the units attached to licensing requirements to ensure rigor in assessment requirements. |

| Knowledge evidence reflects the requirements to achieve the |
|---|
| performance evidence and unit requirements. Assessment |
| conditions are clearly stated. |

Qualifications

| Editorial requirements | Comments by the editor |
|--|--|
| Standard 9: • The structure of the information for qualifications complies with the qualification template. | The qualifications comply with the required template. Packaging rules were succinctly described and unit codes and titles were set out logically. Each qualification had a clear description of the expected outcome which would guide users in their selection of the most appropriate qualification to undertake. |
| Standard 10: Credit arrangements existing between Training Package qualifications and Higher Education qualifications are listed in a format that complies with the credit arrangements template. | No national credit arrangements exist at this stage for the qualifications presented. |

Companion Volumes

| Editorial requirements | Comments by the editor |
|--|--|
| Standard 11: • A quality assured companion volume implementation guide is available and complies with the companion volume implementation guide template. | The BSB Business Services Training Package Companion Volume Implementation Guide (Version 7) complies with all the mandatory sections in the Standards for Training Package template. This includes: • overview information • key implementation information including qualification pathways, occupational outcomes, access and equity, foundation skills and safety. The CVIGv7.0 addresses the Training Package Products Policy clauses noted below in the areas of • mapping and equivalence status (2.5) • details of changes in training products (2.5.4) • rationale for entry requirements (3.2.2) • pathways advice related to qualifications, apprenticeships and VET in schools (3.6) • relationships between skills sets and qualifications (4.1.5). |

3. Proof reading

| Editorial requirements | Comments by the editor |
|--|--|
| Unit codes and titles and qualification codes and titles are accurately cross-referenced throughout the training package product(s) including mapping information and packaging rules, and in the companion volume implementation guide. | Unit codes and titles and qualification codes and titles were checked for consistency across the training package products. Mapping in the Case for Endorsement and the BSB Business Services Training Package Companion Volume Implementation Guide (Version 7) (CVIG) was consistent with the individual units of competency and the qualifications. |

| Units of competency and their content are presented in full. | Units of competency and their content were presented in full and reviewed. |
|--|--|
| The author of the Editorial Report is satisfied with the quality of the training products, specifically with regard to: absence of spelling, grammatical and typing mistakes consistency of language and formatting logical structure and presentation of the document. compliance with the required templates | This Editorial Report is satisfied with the quality of the training products. The developers have undertaken these actions: well organised and presented training products integration of new policy requirements into training products internal editing to check spelling, grammar and typing mistakes consistency of terminology checked. Editorial review has checked the draft training products submitted in these areas: the relationship between summary of changes and the draft units consistency of unit content and with the title, application and within units and across units linkages between sections of the unit of competency and assessment requirements formats and terminology by cross referencing between draft training products the logical presentation of unit and assessment requirements and structure qualifications checked for clarity of packaging rules, unit codes and consistency of all sections clear expression and policy compliance in CVIG and Case for Endorsement compliance with all templates as in the Standards for Training Packages. |

Appendix 5 Quality Assurance Report

Quality Report

The following Quality Assurance Report was produced by Sally Tansley as part of the quality assurance process.

Quality Report - BSB Business Services Training Package Release 7.0

Section 1 - Cover page

| Information required | Detail |
|---|---|
| Training Package title and code | BSB Business Services Training Package Release 7.0 |
| Number of new qualifications and their titles ² | Nil |
| Number of revised qualifications and their titles | 33 – see the case for endorsement |
| Number of new units of competency and their titles | 20 – see the case for endorsement |
| Number of revised units of competency and their titles | 283 – see the case for endorsement |
| Confirmation that the panel member is independent of: the Training Package or Training Package components review ('Yes' or 'No') development and/or validation activities associated with the Case for Endorsement ('Yes' or 'No') undertaking the Equity and/or Editorial Reports for the training package products that are the subject of this quality report ('Yes' or 'No') | Yes the panel member is independent of: the Training Package or Training Package components review development and/or validation activities associated with the Case for Endorsement undertaking the Equity and/or Editorial Reports for the training package products that are the subject of this quality report |
| Confirmation of the Training Packages or components thereof being compliant with the Standards for Training Packages 2012 | In my opinion, the Training Package is compliant with the Standards for Training Packages. |
| Confirmation of the Training Packages or components thereof being compliant with the <i>Training Package Products Policy</i> | In my opinion, the Training Package is compliant with the Training Package Products Policy. |
| Confirmation of the Training Packages or components thereof being compliant with the <i>Training Package Development and Endorsement Process Policy</i> | The Training Package Development and Endorsement Process Policy has been complied with. |

² When the number of training products is high the titles can be presented as an attached list.

| Panel member's view about whether: the evidence of consultation and validation process being fit for purpose and commensurate with the scope estimated impact of the proposed changes is sufficient and convincing | The case for endorsement details a range of consultation strategies which appear to be fit for purpose and included: • IRC meetings • Project working groups • Surveys • Targeted industry consultations • Targeted training sectors consultations • Engage with STAs • Publication on website. The estimated impact of the proposed changes is sufficient and convincing. |
|---|--|
| Name of panel member completing Quality Report | Sally Tansley |
| Date of completion of the Quality Report | 1 July 2020 |

Section 2 – Compliance with the Standards for Training Packages 2012

| Standards for Training Packages | Standard met 'yes' or 'no' | Evidence supporting the statement of compliance or noncompliance (including evidence from equity and editorial reports) |
|---|-------------------------------|--|
| Standard 1 Training Packages consist of the following: 1. AISC endorsed components: | Yes | Yes, the components submitted as part of the Case for Endorsement include the qualification and units of competency and their associated assessment requirements. There are no current credit arrangements. There is an implementation guide, which has been reviewed as part of this quality assurance reporting process. |

| Standards for Training Packages | Standard met 'yes' or 'no' | Evidence supporting the statement of compliance or noncompliance (including evidence from equity and editorial reports) |
|---|-------------------------------|--|
| Standard 2 Training Package developers comply with the Training Package Products Policy | Yes | Training Package – coding and titling The Business Services Training Package Release 7.0 meets Training Package coding and titling. Access and equity There is nothing to suggest that the developer has not met their obligations under anti-discrimination and associated standards and regulations. A section on access and equity is included in the implementation guide, including advice on reasonable adjustment. Foundation Skills Foundation skills are included within units and reflect the foundation skills required in the workplace. Units of competency – coding and titling Coding has been updated meeting the Training Package Products Policy. Some unit titles have been changed to better meet requirements. Units of competency imported from other Training Packages Units competency imported from other Training Packages Comply with the Training Package Products Policy. It is noted that at the time of completing this review that it was indicated that some imported units may be updated if superseded prior to endorsement of this release of the Training Package. Units of competency — mapping Unit of competency mapping is included in the Case for Endorsement and in the Implementation Guide. Qualifications — Coding and Tilting Qualifications are coded and titled according to the Training Package Products Policy. Qualifications — entry requirements Entry requirements exist for a number of qualifications with the rationale for such being included in the Case for Endorsement and the Implementation Guide. Qualifications — packaging rules The packaging rules for BSB qualifications meet the packaging rules as per the Training Products Policy. Qualifications — pathways advice Pathways information and advice is included in the Implementation Guide. Skill sets Skills sets have been determined and are included as part of the Release 7.0. |
| Standard 3 Training Package developers comply with the AISC Training Package Development and Endorsement Process Policy | Yes | The process of Training Package development and endorsement has been followed and the case for endorsement details a range of consultation strategies as noted previously. |
| Standard 4 Units of competency specify the standards of performance required in the workplace | Yes | Units of competency were extensively reviewed as part of the quality assurance process conducted. Significant changes were recommended to improve clarity of the elements and performance criteria of units of competency. Major issues were identified in regard to the performance evidence as summarised under Standard 6. PwC's Skills for Australia accepted most of the recommendations provided and this Panel member is now satisfied with the units and standards of performance. |
| Standard 5 The structure of units of competency complies with the unit of competency template | Yes | The structure of units of competency complies with the unit of competency template. |

| Standards for Training Packages | Standard met 'yes' or 'no' | Evidence supporting the statement of compliance or noncompliance (including evidence from equity and editorial reports) |
|--|-------------------------------|---|
| Standard 6 Assessment requirements specify the evidence and required conditions for assessment | Yes | Assessment requirements were extensively reviewed as part of the quality assurance process conducted. Significant changes were recommended to improve the performance evidence of most units which were either unclear and/or had a volume/frequency which was excessive and would have a significant impact on RTOs and students. PwC's Skills for Australia accepted most of the recommendations provided and this Panel member is now broadly satisfied with the assessment requirements and conditions for assessment. Where the recommendations were not accepted, PwC's Skills for Australia advised that the IRC had approved the volume and/or frequency statement in the performance evidence of each unit as being suitable and required. See also comments under Quality Principle 6. |
| Standard 7 Every unit of competency has associated assessment requirements. The structure of assessment requirements complies with the assessment requirements template | Yes | |
| Standard 8 Qualifications comply with the Australian Qualifications Framework specification for that qualification type | Yes | Qualifications comply with the AQF specification for the level with application descriptors clearly linking to AQF specifications. |
| Standard 9 The structure of the information for the Australian Qualifications Framework qualification complies with the qualification template | Yes | |
| Standard 10 Credit arrangements existing between Training Package qualifications and Higher Education qualifications are listed in a format that complies with the credit arrangements template | Yes | No credit arrangements exist currently. |
| Standard 11 A quality assured companion volume implementation guide produced by the Training Package developer is available at the time of endorsement and complies with the companion volume implementation guide template. | Yes | |
| Standard 12 Training Package developers produce other quality assured companion volumes to meet the needs of their stakeholders as required. | NA | |

Section 3 – Compliance with the training package quality principles

Note: not all training package quality principles might be applicable to every training package or its components. Please provide a supporting statement/evidence of compliance or non-compliance against each principle.

Quality principle 1. Reflect identified workforce outcomes

| Key features | Quality principle is met: Yes / No or N/A | Evidence demonstrating compliance/non compliance with the quality principle Please see examples of evidence in the <i>Training Package Development and Endorsement Process Policy</i> |
|---|--|---|
| Driven by industry's needs | Yes | The Case for Endorsement clearly shows that the BSB Business Services Training Package (Version 7) clearly addresses industry needs. Of particular note is the importance of transferable skills which have been recognised through the inclusion of business enterprise skills in the Training Package. |
| Compliant and responds to government policy initiatives Training package component responds to the COAG Industry and Skills Council's (CISC) training package-related initiatives or directions, in particular the 2015 training package reforms. Please specify which of the following CISC reforms are relevant to the training product and identify supporting evidence: • ensure obsolete and superfluous qualifications are removed from the system • ensure that more information about industry's expectations of training delivery is available to training providers to improve their delivery and to consumers to enable more informed course choices • ensure that the training system better supports individuals to move easily from one related occupation to another • improve the efficiency of the training system by creating units that can be owned and used by multiple industry sectors • foster greater recognition of skill sets | Yes | The Case for Endorsement provides a comprehensive and sound explanation of how reforms are met. The new Training Package is streamlined and is certainly in keeping with removing obsolete and superfluous qualifications/units. My only minor concern is regarding the inclusion of the unit BSBPMG541 Manage complex projects in the qualification BSB50820 Diploma of Project Management, as I consider that the core units already address complex project management and cannot see the value of this unit as an elective within this qualification. I also have some concerns (but not major) in the difference in skills and knowledge between this unit and the unit BSBPMG430 Undertake project work. I consider that project management is project management regardless of whether the project is complex or not. |
| Reflect contemporary work organisation and job profiles incorporating a future orientation | Yes | The qualifications and units appear to reflect contemporary work organisation and job roles. There are still some terms in the marketing and communication units which I am not sure reflect contemporary terminology including "emarketing" (known as digital marketing in my view) and the use of the term "convergent" (my engagement with a number of marketers indicates they do not understand this term). However, these are relatively minor issues. |

Quality principle 2: Support portability of skills and competencies including reflecting licensing and regulatory requirements

| Key features | Quality principle is met: Yes / No or N/A | Evidence demonstrating compliance with the quality principle Please see examples of evidence in the <i>Training Package Development</i> and Endorsement Process Policy |
|--|---|---|
| Support movement of skills within and across organisations and sectors | Yes | Very much so with the inclusion of transferrable skills. |
| Promote national and international portability | Yes | Very much so with the inclusion of transferrable skills and technical skills that are globally recognised. |
| Reflect regulatory requirements and licensing | Yes | |

Quality principle 3: Reflect national agreement about the core transferable skills and core job-specific skills required for job roles as identified by industry

| Key features | Quality principle is met: Yes / No or N/A | Evidence demonstrating compliance with the quality principle Please see examples of evidence in the <i>Training Package Development</i> and Endorsement Process Policy |
|--|---|---|
| Reflect national consensus | Yes | The consultation outlined in the Case for Endorsement indications national consensus. |
| Recognise convergence and connectivity of skills | Yes | Very much so, see previous comments. |

Quality principle 4: Be flexible to meet the diversity of individual and employer needs including the capacity to adapt to changing job roles and workplaces

| Key features | Quality principle is met: Yes / No or N/A | Evidence demonstrating compliance with the quality principle Please see examples of evidence in the <i>Training Package Development</i> and Endorsement Process Policy |
|--|---|---|
| Meet the diversity of individual and employer needs | Yes | I believe the qualifications and units are structured to meet the diversity of individual and employer needs. |
| Support equitable access and progression of learners | Yes | |

Quality principle 5: Facilitate recognition of an individual's skills and knowledge and support movement between the school, vocational education and higher education sectors

| Key features | Quality principle is met: Yes / No or N/A | Evidence demonstrating compliance with the quality principle Please see examples of evidence in the <i>Training Package Development</i> and Endorsement Process Policy |
|--|---|---|
| Support learner transition between education sectors | Yes | The qualifications at the higher level will certainly support learners' transition into higher education. |

Quality principle 6: Support interpretation by training providers and others through the use of simple, concise language and clear articulation of assessment requirements

| Key features | Quality principle is met: Yes / No or N/A | Evidence demonstrating compliance with the quality principle Please see examples of evidence in the <i>Training Package Development</i> and Endorsement Process Policy |
|---|---|--|
| Support implementation across a range of settings | Yes | Especially due to the focus on transferrable skills. |
| Support sound assessment practice | Yes | I still have some concerns about the volume/frequency in the performance evidence of units i.e. in many units, two and above occasions. I note that where the recommendations were not accepted, PWC's Skills for Australia advised that the IRC had approved the volume and/or frequency statement in the performance evidence of each unit as being suitable and required. I consider that it will be very important once the package is implemented to get feedback from users on volume/frequency requirements and their impact. |

Appendix 5 Quality Assurance Report

| Support implementation | Yes | See above. |
|------------------------|-----|------------|
| | | |

Appendix 6 Qualification supporting information

Table 14 Packaging rules

| Current qualifications | Updated qualification | Updated packaging rules | Justification for update |
|--|---|---|--|
| | Business Enterprise Skills | s Project | |
| BSB10115 Certificate I in Business | BSB10120 Certificate I in Workplace Skills | Total number of units = 6 2 core units plus 4 elective units, of which: 2 elective units must be selected from the elective units listed below for the remaining 2 elective units: up to 2 units may be selected from the elective units listed below if not listed, up to 2 units may be selected from a Certificate I or Certificate II from this or any other currently endorsed Training Package qualification or accredited course. | The update was required to align with COAG Industry and Skills Council reforms to Training Packages. Reference section B for further details. |
| Amalgamated two qualifications to create one: BSB20115 Certificate II in Business BSB20215 Certificate II in Customer Engagement | BSB20120 Certificate II in Workplace Skills | Total number of units = 10 5 core units plus 5 elective units, of which: • 1 elective unit must be selected from Group A • 1 elective unit must be selected from Group B For the remaining 3 elective units: • up to 3 units may be selected from Groups A, B and C • if not listed, up to 2 units may be selected from a Certificate I, Certificate II or Certificate III from this or any other currently endorsed Training Package qualification or accredited course. | The update was required to streamline qualifications in line with COAG Industry and Skills Council reforms to Training Packages. The update was also required to remove duplicative units and create a clearer pathway in the BSB Business Services Training Package. Reference section B for further details. |

| Current qualifications | Updated qualification | Updated packaging rules | Justification for update |
|--|---|---|--|
| Amalgamated six qualifications to create one: BSB30115 Certificate III in Business BSB30215 Certificate III in Customer Engagement BSB30415 Certificate III in Business Administration BSB30815 Certificate III in Recordkeeping BSB30915 Certificate III in Business Administration (Education) BSB31115 Certificate III in Business Administration (Medical) | BSB30120 Certificate III in Business | Total number of units = 13 6 core units plus 7 elective units, of which: 2 elective units must be selected from Group A 1 elective unit must be selected from Group B For the remaining 4 elective units: up to 4 units may be selected from Groups A – G if not listed, up to 3 units may be selected from a Certificate II, Certificate III or Certificate IV from this or any other currently endorsed Training Package qualification or accredited course. | The update was required to streamline qualifications in line with COAG Industry and Skills Council reforms to Training Packages. The update was also required to remove duplicative units and create a clearer pathway in the BSB Business Services Training Package. Reference section B for further details. |
| BSB30315 Certificate III in Micro Business Operations | BSB30220 Certificate III in Entrepreneurship and New Business | Total number of units = 10 4 core units plus 6 elective units, of which: • 4 elective units must be selected from the elective units listed below For the remaining 2 elective units: • up to 2 units may be selected from the elective units listed below • if not listed, up to 2 units may be selected from a Certificate II, Certificate III or Certificate IV from this or any other currently endorsed Training Package qualification or accredited course. | The update was required as industry identified that intrapreneur skills were needed in the qualification. Reference section B for further details. |
| Amalgamated eight qualifications to create one: BSB40215 Certificate IV in Business BSB40315 Certificate IV in Customer Engagement BSB40515 Certificate IV in Business Administration BSB40615 Certificate IV in Business Sales BSB41115 Certificate IV in International Trade | BSB40120 Certificate IV in Business | Total number of units = 12 6 core units plus 6 elective units, of which: 2 elective units must be selected from Group A For the remaining 4 elective units: | The update was required to streamline qualifications in line with COAG Industry and Skills Council reforms to Training Packages. The update was also required to remove duplicative units and create a clearer pathway in the BSB Business Services Training Package. Reference section B for further details. |

Appendix 7 Training products proposed for deletion

In accordance with industry consultation, no units are proposed for deletion from the National Register.

The below qualifications are proposed for deletion, based on extremely low uptake and recognition by industry.

| | Training products removed | | | | | |
|----------|--|--------------------|--------------------|--|--|--|
| | | Qualification | ons | | | |
| | 7 qualifications deleted | 2017 Enrolments | 2018 Enrolments | Rationale for deletion | | |
| BSB30515 | Certificate III in Business Administration | _ | - | Consistent low enrolment. Consultation revealed low industry recognition. Unclear job outcomes. | | |
| | (International Education) | | | Learners better suited by undertaking BSB30120 Certificate III in Business, specialising in 'Business Administration'. | | |
| BSB30615 | Certificate III in International Trade | 0 | 0 | Consistent low enrolment. Consultation revealed low industry recognition. Unclear job outcomes. | | |
| B3B30013 | Certificate III III IIIterriational Trade | Ü | Ü | Learners at AQF Level 3 are highly unlikely to be participating in international trade as a job role. | | |
| | | | | Consistent low enrolment. Consultation revealed low industry recognition. | | |
| BSB40715 | Certificate IV in Franchising | 2 | 0 | The skills required to run a franchise are not sufficiently distinguished from running another small business to require a standalone qualification. Franchisors tend to offer necessary training for franchisees. | | |
| BSB40915 | Certificate IV in Governance | 4 | 3 | Consistent low enrolment. Governance is not a job role such that it would warrant a standalone qualification. | | |
| | | | | Learners better suited by undertaking BSB40120 Certificate IV in Business. Consistent low enrolment. Consultation | | |
| | | | | revealed low industry recognition. The skills required to run a franchise are not | | |
| BSB50515 | Diploma of Franchising | 15 | 4 | sufficiently distinguished from running another small business to require a standalone qualification. Franchisors tend to offer necessary training for franchisees. | | |
| BSB52318 | Diploma of Governance | _ | _ | Consistent low enrolment. Governance is not a job role such that it would warrant a standalone qualification. | | |
| B3B32310 | Diploma of Governance | | - | Learners better suited by undertaking BSBSS00114 Organisational Governance Skill Set or BSB50120 Diploma of Business. | | |
| | Graduate Certificate in Leadership | _ | _ | Consistent low enrolment. Unclear job outcomes. | | |
| BSB80315 | Diversity | 37 | 33 | Learners better suited by undertaking BSB80320 Graduate Diploma of Strategic Leadership. | | |
| | | Units of compo | etency | | | |
| | 0 units of competency deleted | | | | | |

No further units of competency were created, deleted or changed in the update from Version 6.0 to Version 7.0. Those units of competency not included in the above mapping table are listed in the *Units in BSB Business Services Training Package* table.

The 'Compare Content Tool' available on the *training.gov.au* (TGA) website allows users to access more detailed information on changes between training product versions. To watch a video on how to use this tool visit https://www.youtube.com/watch?v=EjhNe3Bu0H4.
