

Completion Rules Template

Code and title – Completion Rules (CR)

Purpose: Title of completion rules should directly state the qualification or skill set for which the completion rules are applicable.

Format: Brief phrase and alphanumeric code relating to the training outcome (either qualification or skill set).

Description	<p>Purpose: A brief statement that indicates the name of the training outcome; either a full qualification or skill set. Followed by a short paragraph outlining the job function(s) the qualification relates to.</p> <p>Format: Single sentence followed by a brief paragraph.</p> <p>Standardised wording:</p> <p>The following completion rules apply to [CODE / TITLE]. This [QUALIFICATION / SKILL SET] reflects the job functions of [INSERT FUNCTIONS].</p>				
Classifications	<p>Purpose: A concise table outlining the scheme and classification value that links the completion rules to the applicable Australian Skills Classification (ASC) Skill Cluster Family.</p> <p>Format:</p> <table border="1" data-bbox="557 1512 1307 1653"><thead><tr><th data-bbox="557 1512 927 1581">Scheme</th><th data-bbox="927 1512 1307 1581">Classification value</th></tr></thead><tbody><tr><td data-bbox="557 1581 927 1653">ASC Skill Cluster Family</td><td data-bbox="927 1581 1307 1653">e.g. Construction</td></tr></tbody></table>	Scheme	Classification value	ASC Skill Cluster Family	e.g. Construction
Scheme	Classification value				
ASC Skill Cluster Family	e.g. Construction				
Packaging Rules	<p>Purpose: Describes which Skill Standards and their related Training and Assessment Requirements are included in this completion rules document. At a qualification level this field should clearly specify the Skill Standards and their related Training and Assessment Requirements that must be completed (core) and clearly articulate elective requirements and how specialisations can be obtained. Any prerequisite Skill Standards should also be listed here.</p>				

Format: 1 brief paragraph that makes use of dot points where appropriate. Followed by a Core Component table and Elective Component table outlining the applicable Skill Standards and related Training and Assessment Requirements. Concluded by brief paragraph(s) outlining requirements to achieve a specialisation.

Standardised wording:

In order to be awarded [INSERT QUALIFICATION], learners must complete X Skill Standards and associated Training and Assessment Requirements.

This includes:

- Y core Skill Standards & associated Training and Assessment Requirements
- Z elective Skill Standards & associated Training and Assessment Requirements

Core Component (Y)

Skill Standard	Recommended Training and Assessment Requirements
CODE / TITLE	CODE / TITLE

Elective Component (Z)

Skill Standard	Recommended Training and Assessment Requirements
Group A	
CODE / TITLE	CODE / TITLE

[IF APPLICABLE]

This qualification can provide for specialisations. To achieve a specialisation, the following additional packaging rules must be adhered to:

For specialisation in [SPECIALISATION], 4 elective Skill Standards must be selected from Group A.

The achievement of a specialisation will be identified on a testamur as follows:

CODE - QUALIFICATION (SPECIALISATION)

Licensing or regulatory requirements
